### **DETAILED ACTION**

1. The Applicants' supplemental amendment filed November 2, 2006 is acknowledged. Claims 5-20 are deleted. Claims 21-23 are added. Now, Claims 1-4 and 21-23 are pending.
2. Claim rejection(s) under 35 USC 112 in the previous Office Action (Paper No. 121005) is/are removed.
3. Claim rejection(s) under 35 USC 103 in the previous Office Action (Paper No. 121005) is/are removed.
4. The text of those sections of Title 35, U.S. code not included in this action can be found in prior Office Action(s).
5. The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Newly added Claim 21 differs from patented Claim 1 in that Claim 21 requires the further addition of amorphous silica. MPEP 1402 specifically states that an error under 35 U.S.C. 251 has not been presented where a reissue application only adds one or more claims that is/are narrower than one or more broader existing patent claims without either narrowing the broader patent claim by amendment or cancelling the broader claim. A reissue application in which the only error specified to support reissue is the failure to include one or more claims that is/are narrower than at least one of the existing patent claim(s) without an allegation that one or more of the broader patent claim(s) is/are too broad together with an amendment to such claim(s), does not meet the requirements of 35 U.S.C. 251.

6. Claims 1-4 and 21-23 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

7. Claims 1-4 and 21-23 are allowable over the **prior art**.
